The idea

- ▶ Many young people are studying or just finished their studies and are now finding that there is no employment opportunities for them. Many young people start leaving their countries to go work in other countries but this is also becoming very competitive and employment opportunities are becoming fewer.
- ▶ Our project examined the job market in the various countries of the partnership and will also examine the education paths that young people follow to see how we can create jobs for ourselves, self-employment. We looked at self-employment and also different job opportunities and how young people can use their education and skills to get a job.
- ▶ We looked at opportunities for young people to start their own businesses and also at the risks involved in starting your own business. We examined different job markets to see which ones are looking for employees and how young people can develop their skills and their education or even modify their study paths to allow them to get these jobs.

Voilà!

The background features a repeating pattern of light blue globe icons and large, semi-transparent letters 'FIN'. The globe icons show the continents of Africa and Europe. The letters 'FIN' are arranged in a grid-like pattern, with 'F' and 'I' being larger than 'N'.

Thank you!

And good luck.
